

OIL FILTRATION UNITS WITH ZERO MAINTENANCE COST

Industrial oil filtration units – Centrifugal oil cleaner
– Manufacturing since 1994

BHAGYASHRI ACCESSORIES PVT. LTD. is a leading manufacturer of centrifugal oil cleaners. An **ISO 9001:2015** certified company manufacturing **centrifugal lube oil cleaners** and are OEM to **Cummins India Limited, Mahindra & Mahindra, Greaves Cotton, Kirloskar Oil Engines Limited, BEML** for Engine Application and **Thermax Limited** for Industrial Oil application.

BAPL endeavours to offer quality products to our esteemed customers for various applications as per their requirements so as to provide the customized solution.

Centrifugal oil cleaner effectively removes very fine particles ($5\ \mu$ and below) from oil, saving critical engine & machine components from abrasive wear that would otherwise affect the engine and machine performance. This enables oil to maintain high level of oil cleanliness thereby extending the engine & machine life. Centrifugal oil cleaner works in a by-pass line and is a multi-pass system.

APPLICATIONS:

- QUENCHING OIL – HEAT TREATMENT PLANT
- HYDRAULIC OIL
- FURNACE OIL
